Dear Mr. Hooper:

RE: Univar, Buckingham Place, Omaha, Nebraska
EPA ID# NED986375327

The Environmental Protection Agency (EPA) has completed review of the revised volume 1 of the RCRA Facility Investigation Report (RFI) dated November 1999. The revisions in this report address all comments in our letter to Van Waters and Rogers dated November 19, 1999.

The RFI, consisting of the revised volume 1 and the draft volumes 2 through 5, is approved with the following clarification: The third sentence of the last paragraph of Section 9.2.2 states that there is no exposure to groundwater contaminants of concern (COC's) at Spring Lake Park. The EPA agrees that there are currently no exposures to COC's at Spring Lake Park.

If you have any questions, call me at (913) 551-7547.

Sincerely,

William F. Lowe
